TLIO3015 Maintain security of railway property and revenue

Release: 1

TLIO3015 Maintain security of railway property and revenue

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to maintain the security of railway property and revenue, in accordance with regulatory and workplace requirements.

It includes monitoring and maintaining security of railway property, securing cash revenue, and securing railway property.

Work is performed under some supervision, generally within a team environment.

Work involves the application of regulatory requirements and workplace procedures when maintaining the security of railway property and revenue, as part of workplace activities in the transport and allied industries.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

O – Security

Unit Sector

Not applicable.

Elements and Performance Criteria

Elements describe the essential outcomes. Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | |
|---|--|
| 1 Monitor and maintain the security of railway | 1.1 Workplace security procedures are correctly followed |
| | 1.2 Team members are informed of workplace security procedures |

- | | |
|----------------------------------|---|
| property | <ul style="list-style-type: none">1.3 Team members are provided with feedback about implementing security procedures1.4 Hazards are identified, risks are assessed and control measures are implemented1.5 Security of railway property is monitored and situations, behaviour or other evidence indicating a possible breach of security are recorded and reported in accordance with workplace procedures and relevant regulatory requirements1.6 Matters that may potentially affect railway security are reported in accordance with workplace procedures and policy |
| 2 Secure cash revenue | <ul style="list-style-type: none">2.1 Reconciliation procedures are followed, and full and correct documentation is completed and processed2.2 Legal and regulatory requirements for stock and cash handling are followed2.3 Security of cash, cash registers and keys is maintained in accordance with workplace procedures and policy |

Assessment Requirements for TLIO3015 Maintain security of railway property and revenue

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant workplace procedures
- communicating, consulting and negotiating effectively with others when maintaining the security of railway property and revenue
- completing documentation related to the security of railway property and revenue
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- implementing contingency plans
- interpreting and following operational instructions and prioritising work
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring performance of security equipment and taking appropriate action as required
- monitoring work activities in terms of planned schedule
- operating electronic communications equipment to required protocol
- reading and interpreting relevant instructions, procedures, information and manuals
- reporting and/or rectifying identified problems promptly, in accordance with regulatory requirements and workplace procedures
- selecting and using relevant equipment and materials
- selecting and using required personal protective equipment conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards
- working collaboratively with others when maintaining the security of railway property and revenue
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- cash-handling procedures
- communications and negotiation requirements for maintaining the security of railway property and revenue
- documentation, reporting and record requirements
- emergency management plan
- equipment and materials used when maintaining the security of railway property and revenue, and precautions and procedures that should be followed in their use
- insurance and public liability implications
- problems that may occur when maintaining the security of railway property and revenue, and appropriate action that can be taken to resolve these problems
- regulations and codes of practice relevant to maintaining the security of railway property and revenue
- relevant rail danger zones
- relevant work health and safety (WHS)/occupational health and safety (OHS) procedures and guidelines
- security management plan
- workplace procedures and policies for maintaining the security of railway property and revenue
- workplace security layout
- workplace security systems and requirements.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry

- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
