Assessment Requirements for TLIO5017 Manage security of storage facilities

Release: 1

Assessment Requirements for TLIO5017 Manage security of storage facilities

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- assessing, implementing, monitoring and reviewing security plan
- communicating effectively with others when completing work activities to ensure security approaches are understood and implemented
- completing documentation related to work activities including documentation of loss, damage or other security issues
- monitoring performance of equipment or technology designed to enhance security
- monitoring work activities in terms of planned schedule
- working collaboratively with others to enhance security awareness.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- business policies for security provision, including out-sourcing components of operations and engaging additional resources
- focus of operation of security systems, resources, management and workplace operating systems
- licence and permit requirements relevant to security procedures
- problems that may occur when planning and managing security procedures and action that can be taken to resolve these problems
- regulations, codes of practice and legislative requirements relevant to planning and managing workplace security procedures
- relevant Australian standards and certification requirements
- resource availability including the competencies of individuals in the team/group
- risks and hazards related to planning and managing security procedures and ways of

controlling these risks

- workplace procedures for planning and managing security procedures.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
