Assessment Requirements for TLIPC0005 Demonstrate safe practices at work

Release: 1

Assessment Requirements for TLIPC0005 Demonstrate safe practices at work

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- identifying and following relevant legislation and workplace procedures
- maintaining a clean workspace
- recognising own limitations and asking for assistance
- reporting workplace hazards and work health and safety (WHS)/occupational health and safety (OHS) incidents and hazards
- responding to emergency situations
- using required personal protective equipment (PPE) and other equipment required when following WHS/OHS procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- applicable national, state/territory regulations
- appropriate safety standards
- emergency procedures
- PPE relevant to the job and job context
- procedures related to WHS/OHS to be followed in the work area concerned
- workplace hazards and control measures
- workplace materials, housekeeping equipment and the processes and procedures for use.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the

time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
