Assessment Requirements for TLIPC1002 Adapt to work requirements in the transport and logistics industry

Release: 1

Assessment Requirements for TLIPC1002 Adapt to work requirements in the transport and logistics industry

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- adapting and modifying activities depending on differing workplace contexts and environments
- applying relevant industrial, workplace or other legislative requirements and procedures
- communicating effectively and using appropriate strategies when listening, questioning and receiving feedback
- recognising limitations, asking for help and seeking clarification or information about work requirements and procedures
- using time management strategies
- using workplace technology.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- current transport and logistics industry events, activities, products and services
- learning opportunities in the workplace
- time management strategies and appropriate workplace etiquette
- workplace equipment, tools and other technologies used in the transport and logistics industry, and where and how to obtain information and instructions on their safe use and basic care and servicing
- workplace policies, procedures and guidelines, including environmental sustainability aspects.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
