# **TLISS00186 Conduct Autonomous Rail Traffic Operations Skill Set**

**Release 1**

# **TLISS00186 Conduct Autonomous Rail Traffic Operations Skill Set**

## **Modification History**

Release 1. This is a new Skill Set in the TLI Transport and Logistics Training Package.

## **Description**

This Skill Set is for persons required to conduct autonomous rail traffic operations within a rail network.

## **Pathways Information**

The TLISS00186 Conduct Autonomous Rail Traffic Operations Skill Set is part of the TLI Transport and Logistics Training Package.

## **Licensing/Regulatory Information**

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

## **Skill Set Requirements**

**A total of 4 units of competency must be attained.**

|          |                                                              |
|----------|--------------------------------------------------------------|
| TLIB0007 | Respond and rectify rail traffic autonomous operations       |
| TLIC0005 | Close down rail traffic from autonomous operations           |
| TLIC0006 | Set up rail traffic for autonomous operation                 |
| TLIF0008 | Apply safety critical communications in the rail environment |

## **Target Group**

This Skill Set is intended for rail safety workers required to operate autonomous rail traffic operation within a rail network.

## **Suggested words for Statement of Attainment**

This TLISS00186 Conduct Autonomous Rail Traffic Operations Skill Set meets the industry requirements for persons who are required to operate autonomous rail traffic operation within a rail corridor.

## **Custom Content Section**

Not applicable.
