Assessment Requirements for TLIU3014 Operate vehicle in an environmentally sustainable manner

Release: 2

Assessment Requirements for TLIU3014 Operate vehicle in an environmentally sustainable manner

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying techniques for operating a vehicle in an environmentally sustainable manner
- interpreting and following operational instructions and prioritising work
- monitoring performance of a vehicle and taking appropriate action, as required
- operating and adapting to differences in equipment in accordance with workplace procedures
- reading and interpreting relevant instructions, procedures, information and signs
- working collaboratively with others.

Knowledge Evidence

- efficient driving techniques and environmental driving considerations, including factors that can affect the environment if not operating a vehicle in an environmentally sustainable manner
- factors that may cause traffic delays and diversions and related action that can be taken by a driver
- relevant legislation and workplace procedures for operating vehicles in an environmentally sustainable manner
- relevant state/territory road traffic authority road rules, regulations, permit and licence requirements
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations for operating a vehicle in an environmentally sustainable manner
- workplace documentation
- workplace driving and operational instructions.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Final assessment is to take place in a commercial vehicle typical of that used in industry

A simulator is not suitable for final assessment of this unit of competency.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or simulations
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
