TLIW2020 Undertake pallet repairs

Release: 1

TLIW2020 Undertake pallet repairs

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to undertake pallet repairs in accordance with regulatory requirements and workplace procedures in the transport and logistics industry.

It includes inspecting and assessing pallet condition, repairing non-conforming pallets and completing operations in accordance with requirements relevant to pallet manufacturing processes.

Work is generally performed under some supervision, within a team/group environment.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

W – Equipment and Systems Operations

Unit Sector

Not applicable.
