Assessment Requirements for TLIW3027 Operate minor track equipment

Release: 2

Assessment Requirements for TLIW3027 Operate minor track equipment

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor grammatical statement changes in Performance Evidence
- Minor statement removed in Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- communicating effectively with others
- completing relevant documentation
- following operational instructions
- following relevant safeworking system and workplace procedures
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- implementing contingency plans
- modifying activities depending on operational contingencies, risk situations and environments
- obtaining approval to place minor track equipment on track
- operating and monitoring minor track equipment on track
- performing pre- and post-operational equipment checks in accordance with workplace procedures
- removing equipment from track
- reporting and/or rectifying identified minor track equipment problems, faults and malfunctions, in accordance with workplace procedures
- working with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- hazards that may exist when operating minor track equipment and ways of controlling the

risks involved

- organisational emergency management plan procedures for operating minor track equipment
- organisational procedures and manufacturer specifications for operating minor track equipment
- problems that may occur when operating minor track equipment and actions that can be taken to report or resolve these problems
- relevant state/territory rail safety requirements
- work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations
- work on-track safeworking system rules and regulations.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail corridor workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
