TLIX0046 Apply anti-dumping and countervailing measures

Release: 1

TLIX0046 Apply anti-dumping and countervailing measures

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to identify goods subject to dumping and/or countervailing measures, and to calculate applicable duties.

This unit includes identifying and determining goods subject to anti-dumping and/or countervailing measures in accordance with legislative requirements.

Work must be carried out in compliance with relevant customs and anti-dumping legislation.

Work is undertaken in a range of environments, including small to large worksites, in the customs broking and international supply chain industries.

No licensing, legislative or certification requirement apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

X – Logistics

Unit Sector

Customs Broking.

Assessment Requirements for TLIX0046 Apply anti-dumping and countervailing measures

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- advising on the operation/aspects of the Australian anti-dumping and countervailing system
- applying appropriate Acts and regulations
- calculating ascertained export price (AEP)
- calculating dumping and/or countervailing duties payable
- calculating dumping export price (DXP)
- identifying exempt goods, country and suppliers/exporters
- identifying goods subject to anti-dumping and/or countervailing duty
- identifying relevant country of export and/or origin.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- assessing shipments using current government legislation including:
 - Australian Customs Act and regulations
 - Dumping Commodity Register (DCR)
 - Australian anti-dumping and countervailing legislation
- circumvention activities
- content and use of DCR
- dumping and countervailing securities, eventual outcomes and conversions
- dumping duty assessments
- preparing final dumping duty assessments
- processes to determine and calculate anti-dumping and countervailing duties.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
