TLIX4018 Apply materiel sustainment process and procedures

Release: 1

TLIX4018 Apply materiel sustainment process and procedures

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to apply materiel sustainment processes and procedures in accordance with relevant organisational policy and procedures.

The application of processes and procedures is specific to a variety of component processes including: materiel sustainment administrative procedures, materiel sustainment data collection and storage, and materiel sustainment data retrieval.

This unit was developed for materiel sustainment specialists working within materiel logistics but is applicable to individuals in broader logistics roles.

Typically these individuals work independently or as part of a team under direct and/or indirect supervision, use discretion and judgement, and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

X – Logistics

Unit Sector

Not applicable.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Prepare to apply materiel sustainment

1.1 Requirement for applying materiel sustainment processes and procedures is identified from work

processes and procedures	requests/instructions and is confirmed
	1.2 Work health and safety (WHS)/occupational health and safety (OHS) requirements, including those contained in organisational procedures, are applied throughout the operation
	1.3 Required resources and equipment are identified, acquired and prepared in accordance with organisational procedures
	1.4 Sources of information relevant to materiel sustainment requirements are identified and relevant information is obtained in accordance with organisational policy and procedures
2 Apply materiel sustainment processes and procedures	2.1 Materiel sustainment processes and procedures are implemented and monitored within resource constraints
	2.2 Materiel sustainment processes and procedures are amended based on changing circumstances in accordance with organisational policy and procedures
3 Monitor and report on materiel sustainment processes and procedures	3.1 Materiel sustainment outcomes are reported to appropriate personnel in accordance with organisational policy and procedures
	3.2 Materiel sustainment processes and procedures are monitored and reviewed to ensure systems and/or equipment capability is maintained, in accordance with organisational policy and procedures
4 Maintain records for materiel sustainment processes and procedures	4.1 Materiel sustainment records are completed in accordance with organisational policy and procedures
	4.2 Materiel sustainment records are amended and documented in accordance with organisational policy and procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIX4018A Apply materiel sustainment processes and procedures.
