TLIX4029 Apply knowledge of integrated logistics support

Release: 1

TLIX4029 Apply knowledge of integrated logistics support

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to analyse and apply knowledge of integrated logistics support in accordance with relevant organisational policy and procedures.

The application of this knowledge is required by people who are not integrated logistics support specialists but who need the knowledge to inform their decision making. The application of integrated logistics support knowledge is specific to a variety of component processes in material logistics activities.

This unit was developed for logistics specialists working within materiel logistics but is applicable to individuals in broader logistics roles.

Typically these individuals work independently or as part of a team under direct and/or indirect supervision, use discretion and judgement, and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

X – Logistics

Unit Sector

Not applicable.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Access and interpret

1.1 Relevant integrated logistics support requirements are

relevant integrated logistics support information

identified and obtained

- 1.2 Integrated logistics information obtained is analysed to determine relevance and application to the organisation
- 1.3 Outcomes of the analysis are documented and recommendations relevant to integrated logistics support are determined

2 Use knowledge of integrated logistics support

- 2.1 Integrated logistics support requirements and recommendations relevant to materiel and materiel logistics are applied in accordance with organisational policy and procedures
- 2.2 Effectiveness of recommendations is assessed, reviewed and recorded in accordance with organisational policy and procedures
- 2.3 Recommendations are adjusted as required and documented for future application in accordance with organisational policy and procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIX4029A Apply knowledge of integrated logistics support.
