Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- advising clients about their obligations in regard to duty assessment
- advising clients on the impact/considerations of penalty legislation
- advising clients on the operation/aspects of the Australian anti-dumping and countervailing system
- calculating dumping export price (DXP)
- ensuring currency of relevant legislative and regulatory knowledge
- identifying exempt goods and suppliers
- identifying inclusive goods and suppliers
- identifying relevant country of export
- preparing duty assessments
- reading and interpreting appropriate Acts and regulations.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- assessing shipments using current government legislation including:
 - Australian Customs Act and regulations
 - Dumping Commodity Register (DCR)
 - Australian anti-dumping and countervailing legislation
- content and use of DCR
- processes to determine and calculate anti-dumping and countervailing duties.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so. Where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
