**Release 4**

# TLISS00037 Open Road Operator Skill Set

## Modification History

Release 4. This is the fourth release of this Skill Set in TLI10 Transport and Logistics Training Package Version 4.0.

In Release 4 pathways information has been updated to include the TLI42513 Certificate IV in Traffic Operations. This release is equivalent to the previous release of the Skill Set.

## Description

This Skill Set targets anyone who is required to carry out the duties of an open road operator within a road traffic control centre.

## Pathways Information

This Skill Set contributes to the TLI42513 Certificate IV in Traffic Operations within the TLI10 Transport and Logistics Training Package Version 4.0.

## Licensing/Regulatory Information

Readers should ensure they have also read the part of the Training Package that outlines licensing and regulatory requirements.

## Skill Set Requirements

|                                                           |                                                                      |
|-----------------------------------------------------------|----------------------------------------------------------------------|
| A total of <b>5 units</b> of competency must be attained. |                                                                      |
| <b>Units</b>                                              |                                                                      |
| HLTAMBPD401C                                              | Manage personal stressors in the work environment                    |
| TLIF4007A                                                 | Implement and coordinate accident-emergency procedures               |
| TLIF4069A                                                 | Monitor and respond to traffic flow                                  |
| TLIK2010A                                                 | Use infotechnology devices in the workplace                          |

## **Target Group**

This is a Skill Set providing training for an open road operator. It is intended for use by those employed in the job role of an open road operator within the road systems of Australia.

## **Suggested words for Statement of Attainment**

These competencies from the TLI10 Transport and Logistics Training Package Version 4.0 and HLT07 Health Training Package meet the needs of open road operators. The units of competency are drawn from nationally endorsed Training Packages and provide the skills and knowledge for a person working in the open road operator environment.
