TLISS00038 Operate Signalling/Point Control Equipment Skill Set

Release: 3

TLISS00038 Operate Signalling/Point Control Equipment Skill Set

Modification History

Release 3

This is the third release of this skill set in TLI10 Transport and Logistics Training Package Version 3.0.

Units revised. Equivalent to previous version of the skill set.

Description

This skill set targets anyone required to operate stand alone signalling and/or point control equipment as part of their job role. It is not aligned to any specific qualification and while it can be achieved separately it is unlikely to be used outside of a more complex job role.

Pathways Information

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **2 units** of competency must be completed.

Unit/s	
TLIF2080C	Safely access the rail corridor
TLIW3026B	Operate stand alone signalling/point control equipment

Target Group

This is a skill set used by anyone in the general rail infrastructure or operations environment who is required to operate stand alone signalling and/or point control equipment as part of their duties.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package (Version 3) meet the needs of signalling/point control equipment operation duties. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working within the general rail infrastructure or operations environment.
