TLISS00040 Rail Adjustment Skill Set

Release: 2

TLISS00040 Rail Adjustment Skill Set

Modification History

Not Applicable

Description

Not Applicable

Pathways Information

This skill set is to be undertaken in addition to the Core Units from the Certificate II in Rail Infrastructure (Track Work) and targets those rail track workers who will adjust rail.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of 1 **unit** of competency must be completed.

Unit	
TLIB3102A	Adjust rail

Target Group

This is a skill set covering the role of rail adjustor within the general rail infrastructure environment.

Suggested words for Statement of Attainment

This competency from the TLI10 Transport and Logistics Training Package (Version 2) meets the needs of rail adjustment. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as a rail adjustor within the general rail infrastructure environment.
