TLISS00041 Rail Infrastructure Induction Skill Set

Release 3

TLISS00041 Rail Infrastructure Induction Skill Set

Modification History

Release 3

This is the third release of this skill set in TLI10 Transport and Logistics Training Package Version 3.0.

Units revised. Equivalent to previous version of the skill set.

Description

This skill set targets rail track workers who are new to the rail infrastructure environment; it is not aligned to any specific qualification and can be achieved separately.

Pathways Information

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **5 units** of competency must be completed.

Unit/s	
TLIB1028A	Maintain and use hand tools
TLID1001A	Shift materials safely using manual handling methods
TLIF1001A	Follow occupational health and safety procedures
TLIF2080C	Safely access the rail corridor
TLIW2001A	Operate under track protection rules

Target Group

This is a skill set providing basic induction into the general rail infrastructure environment. It is intended for use by temporary workers or those who will be carrying out basic activities in the general rail infrastructure environment.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package (Version 3) meet the needs of the rail infrastructure industry to provide an appropriate induction. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person commencing work within the general rail infrastructure environment.
