Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **1 unit** of competency must be completed.

Unit/s
TLIB2081A Repair timber structures

Target Group

Target group

This is a skill set covering the role of timber structures repairer within the general rail infrastructure environment.

Suggested words for Statement of Attainment

This competency from the TLI10 Transport and Logistics Training Package (Version 2) meets the needs for repairing timber structures. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as a timber structures repairer operating within the general rail infrastructure environment.
