UEECO0004 Participate in appliance servicing work and competency development activities

Release: 1

UEECO0004 Participate in appliance servicing work and competency development activities

Modification History

Release 1. This is the first release of this unit of competency in the UEE Electrotechnology Training Package.

Application

This unit involves the skills and knowledge required to participate in appliance servicing work and competency development activities.

It includes applying workplace policies and procedures in actively participating in appliance servicing work activities and competency development. It also includes observing how appliance servicing work is conducted, identifying responsibilities and obligations under competency development plan, following activities for developing competency, self-monitoring competency development and meeting obligations for periodic reporting of competency development activities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable

Competency Field

Commercial

Unit Sector

Electrotechnology
