UEECO0007 Participate in electronics and communications work and competency development activities

Release: 1

UEECO0007 Participate in electronics and communications work and competency development activities

Modification History

Release 1. This is the first release of this unit of competency in the UEE Electrotechnology Training Package.

Application

This unit involves the skills and knowledge required to participate in electronics and communications work and competency development activities.

It includes identifying responsibilities and obligations under competency development plan, following activities for developing competency, self-monitoring competency development and meeting obligations for periodic reporting of competency development activities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable

Competency Field

Commercial

Unit Sector

Electrotechnology

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1 Comply with relevant electronics and communications industry standards and workplace procedures	1.1 Relevant industry standards and workplace procedures for work activities are identified and obtained

- | | | |
|--|------------|---|
| | 1.2 | Clarification on work to be carried out is sought from the supervisor/relevant person/s in accordance with workplace procedures |
| | 1.3 | Unplanned situations are dealt with safely and in accordance with relevant industry and workplace procedures and with the approval of relevant person/s |
| 2 Monitor and respond to a personal competency development plan | 2.1 | Competency development plan is confirmed in consultation with relevant person/s |
| | 2.2 | Competency development plan components are followed |
| | 2.3 | Opportunities to apply skills and knowledge relative to a particular competency are identified in accordance with competency development plan |
| | 2.4 | Assistance is sought from relevant person/s and/or organisation/s to assist in developing skills and applying knowledge to a relevant competency |
| | 2.5 | Progress in competency development is self-monitored in accordance with competency development plan, relevant industry standards and workplace procedures |
| | 2.6 | Modifications to competency development plan are made in consultation with relevant person/s |
| | 2.7 | Obligations for periodic and timely reporting of competency development activities are met |
| | 2.8 | Periodic competency development activities report is validated by relevant person/s in accordance with relevant industry standards and workplace procedures |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the UEE Electrotechnology Training Package

Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to UEENEEC021B Participate in electronics and communications work and competency development activities.
