UEECO0010 Participate in refrigeration and air conditioning work and competency development activities

Release: 1

UEECO0010 Participate in refrigeration and air conditioning work and competency development activities

Modification History

Release 1. This is the first release of this unit of competency in the UEE Electrotechnology Training Package.

Application

This unit involves the skills and knowledge required to participate in refrigeration and air conditioning work and competency development activities.

It includes applying workplace policies and procedures and actively participating in refrigeration and air conditioning work activities in competency development. It also includes observing how refrigeration and air conditioning work is conducted, identifying responsibilities and obligations under a competency development plan, following activities for developing competency, self-monitoring competency development and meeting obligations for periodic reporting of competency development activities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Commercial

Unit Sector

Electrotechnology

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Comply with refrigeration and air conditioning

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Workplace policies and procedures for refrigeration and air conditioning work activities are identified and

workplace policies and procedures	applied
	1.2 Clarification on how particular refrigeration and air conditioning work is to be carried out and the workplace procedures involved is sought from supervisor/appropriate person/s
	1.3 Unplanned situations are dealt with safely in accordance with workplace policies and procedures and with the approval of authorised person/s in a manner that minimises risk to personnel and equipment
2 Monitor and respond to competency development plan	2.1 Aspects of the refrigeration and air conditioning competency development plan are confirmed in consultation with appropriate person/s
	2.2 Components of the refrigeration and air conditioning competency development plan are followed in accordance with workplace procedures
	2.3 Opportunities to practise skills and apply knowledge relevant to a particular refrigeration and air conditioning competency are pursued
	2.4 Assistance is sought from appropriate person/s to overcome difficulties in developing skills and applying knowledge relevant to refrigeration and air conditioning competency
	2.5 Progress in competency development is self-monitored against the refrigeration and air conditioning competency development plan and workplace policies and procedures
	2.6 Modifications to the competency development plan are made in consultation with appropriate person/s
	2.7 Obligations are met for periodic and timely reporting of competency development activities
	2.8 Periodic competency development activities report is validated by appropriate person/s in accordance with workplace policies and procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the UEE Electrotechnology Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to UEENEEC025B Participate in refrigeration and air conditioning work and competency development activities.
