UEESS00143 Instrumentation - Develop an Integrated System Interface for Access Through a Touch Screen Skill Set

Release 1

UEESS00143 Instrumentation - Develop an Integrated System Interface for Access Through a Touch Screen Skill Set

Modification History

Release 1: This is the first release of this Skill Set in the UEE Electrotechnology Training Package.

This Skill Set replaces and is equivalent to UEESS00073 Instrumentation - Develop a integrated system interface for access through a touch screen.

Description

This Skill Set is for persons who are required to develop an integrated system interface for access through a touch screen.

Pathways Information

The unit of competency in this Skill Set will contribute to the completion of relevant Certificate III, Certificate IV, Diploma and Advanced Diploma qualifications from the UEE Electrotechnology Training Package.

Entry Requirement

It is essential that persons undertaking this Skill Set already hold the following unit:

- UEEIC0011 Develop electrical integrated systems

Licensing/Regulatory Information

Not applicable.

Skill Set Requirements

A total of **1 unit** of competency must be attained.

UEEIC0009	Develop an electrical integrated system interface for access through a touch screen
-----------	---

Target Group

This Skill Set is intended for persons who are required to develop an integrated system interface for access through a touch screen.

Suggested words for Statement of Attainment

This Skill Set from the UEE Electrotechnology Training Package meets the industry requirements for developing touch screen access in an integrated system.

Custom Content Section

Not applicable.
