UEESS00148 RAC - Design Hydrocarbon Refrigeration Systems Skill Set

Release 1

UEESS00148 RAC - Design Hydrocarbon Refrigeration Systems Skill Set

Modification History

Release 1: This is the first release of this Skill Set in the UEE Electrotechnology Training Package.

This Skill Set replaces and is equivalent to UEESS00080 Refrigeration-Air Conditioning - Design Hydrocarbon Refrigeration Systems.

Description

This Skill Set is for persons who are required to design hydrocarbon refrigeration system.

Pathways Information

The units of competency in this Skill Set will contribute to the completion of relevant, Diploma and Advanced Diploma qualifications from the UEE Electrotechnology Training Package.

Entry Requirements

It is essential that persons undertaking this skill set already hold the following unit:

- UEERA0034 Establish heat loads for commercial refrigeration and/or air conditioning applications

AND

- UEERA0042 Evaluate thermodynamic and fluid parameters of refrigeration systems

OR

- Diploma of Air Conditioning and Refrigeration Engineering

OR

- Advanced Diploma of Air Conditioning and Refrigeration Engineering

OR

- Advanced Diploma of Engineering Technology - Air Conditioning and Refrigeration

Licensing/Regulatory Information

Not applicable.

Skill Set Requirements

A total of **3 units** of competency must be attained.

UEERA0007	Apply safety awareness and legal requirements for flammable refrigerants
UEERA0016	Design commercial refrigeration systems and select components
UEERA0023	Design hydrocarbon refrigerated systems

Target Group

This Skill Set is intended for persons who are required to design hydrocarbon refrigeration system.

Suggested words for Statement of Attainment

This Skill Set from the UEE Electrotechnology Training Package meets the industry requirements for designing hydrocarbon refrigeration systems.

Custom Content Section

Not applicable.
