UEESS00174 Electrical Safety Testing of Electrical Cord Connected Equipment and Cord Assemblies Skill Set

Release 1

UEESS00174 Electrical Safety Testing of Electrical Cord Connected Equipment and Cord Assemblies Skill Set

Modification History

Release 1: This is the first release of this Skill Set in the UEE Electrotechnology Training Package.

This Skill Set replaces and is equivalent to UEESS00098 Restricted - Electrical safety testing of electrical cord connected equipment and cord assemblies.

Description

This Skill Set is designed for persons wishing to undertake the testing, tagging and reporting of portable/handheld low voltage (LV) electrical equipment using a portable appliance tester (PAT). These competencies are in addition to competencies already gained in the relevant field to which the electrical work is incidental or a primary and regular function of the work.

Pathways Information

The units of competency in this Skill Set will contribute to the completion of relevant Certificate II, Certificate III and Certificate IV qualifications from the UEE Electrotechnology Training Package.

Licensing/Regulatory Information

Not applicable.

Skill Set Requirements

A total of **2 units** of competency must be attained.

UEECD0007	Apply work health and safety regulations, codes and practices in the workplace
UEERL0003	Conduct in-service safety testing of electrical cord connected equipment and cord assemblies

Target Group

The units of competency in this Skill Set are for persons required to ensure the safety of portable equipment and the work is incidental or a primary and a regular function of work related to a

principle work function.

Suggested words for Statement of Attainment

This Skill Set from the UEE Electrotechnology Training Package meets the industry requirements for electrical safety testing of electrical cord connected equipment and cord assemblies.

Custom Content Section

Not applicable.
