UEESS00182 Identify and Isolate Multiple Supply Systems

Release 1

UEESS00182 Identify and Isolate Multiple Supply Systems

Modification History

Release 1. This is the first release of this Skill Set in the UEE Electrotechnology Training Package.

Description

This Skill Set is for individuals who are required to identify and isolate multiple supply systems in the electrotechnology industry.

Pathways Information

The unit of competency in this Skill Set will contribute to the completion of a relevant Certificate IV qualification from the UEE Electrotechnology Training Package.

Licensing/Regulatory Information

This Skill Set has been designed to meet jurisdictional regulatory and/or licensing currency requirements for holders of an 'Unrestricted Electrical Licence'.

Skill Set Requirements

A total of 1 **unit of competency** must be attained.

The unit of competency within this Skill Set contains pre-requisites. Refer directly to the unit of competency to identify pre-requisite requirements to ensure all are complied with. A list of all pre-requisites is also provided in the UEE Pre-requisite Companion Volume.

UEERE0050 Identify and isolate multiple supply systems*

Target Group

This Skill Set is intended for qualified electricians who are required to identify and isolate multiple supply systems at a premise with or without grid connection.

Suggested words for Statement of Attainment

This Skill Set from the UEE Electrotechnology Training Package meets the industry requirements for individuals that are identifying and isolating multiple supply systems.
