UEESS00212 Sustainable - Energy Assessment of Industrial Properties and Enterprises Skill Set

Release 1

UEESS00212 Sustainable - Energy Assessment of Industrial Properties and Enterprises Skill Set

Modification History

Release 1: This is the first release of this Skill Set in the UEE Electrotechnology Training Package.

This Skill Set replaces and is not equivalent to UEESS00162 Sustainable - Energy Assessment of industrial properties and enterprises. Modifications include:

- Title updated
- Unit requirements amended.

Description

This Skill Set is for persons who are required to undertake energy assessments of industrial properties and enterprises.

Pathways Information

The units of competency in this Skill Set can contribute to the completion of relevant Certificate IV, Diploma and Advanced Diploma qualifications from the UEE Electrotechnology Training Package.

Licensing/Regulatory Information

It is essential that persons undertaking this Skill Set already hold a current unrestricted electrical licence issued in an Australian state or territory.

Skill Set Requirements

A total of **3 units** of competency must be attained.

There are units of competency within this Skill Set that contain pre-requisites. Units of competency that have a pre-requisite requirement are identified by this symbol *. Refer directly to the units of competency to identify pre-requisite requirements to ensure all are complied with. A list of all pre-requisites is also provided in the UEE Pre-requisite Companion Volume.

CPPHES4005	Assess household energy use and efficiency improvements
UEERE0053	Assess energy loads and uses for energy efficiency in industrial properties and enterprises *
UEERE0068	Develop strategies to address sustainability issues for electrical

installations *

Target Group

This Skill Set is intended for persons who are required to undertake energy assessments of industrial properties and enterprises.

Suggested words for Statement of Attainment

This Skill Set from the UEE Electrotechnology Training Package meets the industry requirements for energy assessment of industrial properties and enterprises.
