UEESS00216 Sustainable - Identify Energy Efficiency Strategies Skill Set

Release 1

UEESS00216 Sustainable - Identify Energy Efficiency Strategies Skill Set

Modification History

Release 1: This is the first release of this Skill Set in the UEE Electrotechnology Training Package.

This Skill Set replaces and is equivalent to UEESS00167 Sustainable - Identify Energy Efficiency Strategies. Modifications include:

- Title updated
- Unit requirements updated.

Description

This Skill Set is for persons who are required to identify energy efficiency strategies.

Pathways Information

The units of competency in this Skill Set can contribute to the completion of relevant Diploma and Advanced Diploma qualifications from the UEE Electrotechnology Training Package.

It is essential that persons undertaking this Skill Set already hold a Degree in Electrical Engineering, an Advanced Diploma or Diploma of Electrical Engineering or an electrical trade qualification from the UEE Electrotechnology Training Package or equivalent.

Licensing/Regulatory Information

Not applicable.

Skill Set Requirements

A total of **4 units of competency** must be attained.

UEECD0010	Compile and produce an energy sector detailed report
UEECD0012	Contribute to risk management in electrotechnology systems
UEERE0013	Develop strategies to address environmental and sustainability issues in the energy sector
UEERE0066	Develop effective engineering strategies for energy reduction in buildings

Target Group

This Skill Set is intended for persons who are required to identify energy efficiency strategies.

Suggested words for Statement of Attainment

This Skill Set from the UEE Electrotechnology Training Package meets the industry requirements to identify energy efficiency strategies.

Custom Content Section

Not applicable.
