UEESS00012 Skill Set - Design Explosion-Protected Electrical Systems - Coal Mining

Release: 1

UEESS00012 Skill Set - Design Explosion-Protected Electrical Systems - Coal Mining

Modification History

Not Applicable

Description

Not Applicable

Pathways Information

Pathway

The units of competency in this skill set will contribute to the completion of relevant Diploma and Advanced Diploma qualifications from the UEE07 Electrotechnology Training Package.

Please consult the packaging rules of the relevant qualification for further advice.

Licensing/Regulatory Information

Not Applicable

Skill Set Requirements

Units	UEENEEM075A	Design explosion-protected electrical systems - Coal mining
--------------	-------------	---

Target Group

Target Group	It is essential that anyone undertaking this skill set already holds the Competency Standard Unit: UEENEEE015B Develop design briefs for electro technology projects Note : This Skill Set is directly equivalent to the Unit 2.18 <i>Design explosion-protected electrical systems and installations</i> in the Australian/New Zealand Standard AS/NZS 4761.1:2008 <i>Competencies for working with electrical equipment for hazardous areas (EEHA) Part 1: Competency Standards</i>. Equivalence includes endorsement in the explosion-protection techniques listed in the Range statement of the unit UEENEE075A.
---------------------	---

Suggested words for Statement of Attainment

Suggested form of words for Statement of Attainment	This Skill Set from the UEE07 Electrotechnology Training Package meets the industry requirements for Design explosion-protected electrical systems - Coal mining
