UEESS00075 Instrumentation - Develop integrated systems

Release: 2

UEESS00075 Instrumentation - Develop integrated systems

Modification History

Release	Action	Core/Elective	Details	Points
2	Update	N/A	Mapped skill set requirements	

Description

Not applicable.

Pathways Information

The unit of competency in this skill set will contribute to the completion of relevant Certificate III, Certificate IV, Diploma and Advanced Diploma qualifications from the UEE11 Electrotechnology Training Package. Please consult the packaging rules of the relevant qualification for further advice.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

UEENEEI141A Develop integrated electrical systems

Target Group

It is essential that anyone undertaking this skill set already holds Competency Standard Units in electrical, electronic and data communication work and competency in the use of personal computers. Examples of a suitable competencies are (but not limited to):

UEENEEE108A Lay wiring/cabling and terminate accessories for extra-low voltage (ELV) circuits

or

UEENEEG106A Terminate cables, cords and accessories for low voltage circuits and

UEENEE101A Use computer applications relevant to a workplace

Also, it is suitable for employment-based programs under an approved contract of training and may be aligned with a vendor training program that is shown to have the same competency outcomes as this unit

Suggested words for Statement of Attainment

This Skill Set from the UEE11 Electrotechnology Training Package meets the industry requirements for developing integrated systems
