# **UEESS00076 Instrumentation - Develop interfaces for multiple access methods to monitor, schedule and control an integrated system**

**Release: 2**

## **UEESS00076 Instrumentation - Develop interfaces for multiple access methods to monitor, schedule and control an integrated system**

### **Modification History**

| Release | Action | Core/Elective | Details                       | Points |
|---------|--------|---------------|-------------------------------|--------|
| 2       | Update | N/A           | Mapped skill set requirements |        |

### **Description**

Not applicable.

### **Pathways Information**

The unit of competency in this skill set will contribute to the completion of relevant Certificate III, Certificate IV, Diploma and Advanced Diploma qualifications from the UEE11 Electrotechnology Training Package. Please consult the packaging rules of the relevant qualification for further advice.

### **Licensing/Regulatory Information**

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

### **Skill Set Requirements**

UEEENEI144A      Develop interfaces for multiple access methods to monitor, schedule and control an electrical integrated system

## **Target Group**

It is essential that anyone undertaking this skill set already holds Competency Standard Unit: UEENEEI142A Develop an electrical integrated system interface for access through a touch screen

and seek to expand the competency to developing multiple access of an integrated system. Also, it may be aligned with a vendor training program that is shown to have the same competency outcomes as this unit

## **Suggested words for Statement of Attainment**

This Skill Set from the UEE11 Electrotechnology Training Package meets the industry requirements for developing multiple access control of integrated systems.

## **Custom Content Section**

Not applicable.
