Assessment Requirements for UEPMNT311 Maintain fuel transport equipment

Release: 1

Assessment Requirements for UEPMNT311 Maintain fuel transport equipment

Modification History

Release 1. This is the first release of this unit of competency in the UEP Generation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, performance criteria and range of conditions on at least two separate occasions and includes:

-
- applying Work, Health and Safety (WHS)/Occupational Health and Safety (OHS) requirements including:
 - emergency procedures
 - hazard identification
 - risk control measures
 - safe working practices
- communicating with personnel
- completing work as per scheduled arrangements
- identifying and using measuring equipment
- interpreting technical drawings, manufacturers' specifications and manuals
- maintaining fuel delivery systems using maintenance techniques and procedures
- planning for fuel transport equipment maintenance work
- removing systems and associated equipment using removal techniques and procedures
- replacing systems and associated equipment using installing techniques and procedures
- reviewing technical drawings
- selecting materials and components
- using tools
- working with permit to work system

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, performance criteria and range of conditions and includes knowledge of:

- fuel transport systems
- hand tools

- legislation, industry standards, codes of practice and regulations
- maintenance of fuel transport equipment
- manufacturers' specifications and manuals
- materials and components
- measuring equipment
- permit to work system
- technical drawings
- typical arrangements of a power production plant
- WHS/OHS legislated requirements including:
 - emergency procedures
 - hazard identification
 - risk control measures
 - safe working practices
- workplace documentation
- workplace policies and procedures

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions. Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, industry standards, equipment specifications, regulations, codes of practice and operation manuals.
