Assessment Requirements for UEPOPS031

Coordinate response to critical incidents

Release: 1

Assessment Requirements for UEPOPS031 Coordinate response to critical incidents

Modification History

Release 1. This is the first release of this unit of competency in the UEP Electricity Supply Industry - Generation Sector Training Package Release 2.0.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least two separate occasions and include:

- applying work health and safety (WHS)/occupational health and safety (OHS) requirements, including:
 - emergency procedures
 - risk control measures
 - safe working practices
- communicating with external and internal stakeholders
- conducting debriefings and reviewing stakeholder feedback
- coordinating critical incident situations
- coordinating personnel
- determining communications
- documenting critical incident and response using recording procedures
- establishing contingency and emergency response plans
- identifying critical incidents and consequences
- implementing regulations, legislative requirements, codes of practice, manufacturers' recommendations and specifications, and environmental requirements
- interpreting manuals
- organising and coordinating response to critical incidents
- using policies and procedures for critical incidents
- utilising data analysis techniques and tools when assessing critical incident risks and responses
- working with contingency plans.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- communication during critical incidents
- contingency and emergency response plans

- coordination of critical incident situations
- data analysis techniques and tools
- debriefings and stakeholder feedback methods
- regulations, legislative requirements, codes of practice, manufacturers' recommendations and specifications, and environmental requirements
- role of external authorities
- WHS/OHS requirements, including:
 - emergency procedures
 - risk control measures
 - safe working practices
- workplace documentation
- workplace policies and procedures.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, equipment specifications, regulations, codes of practice and operation manuals.
