Assessment Requirements for UEP OPS428 Develop H.V. switching programs

Release: 1

Assessment Requirements for UEPOPS428 Develop H.V. switching programs

Modification History

Release 1. This is the first release of this unit of competency in the UEP Generation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, performance criteria and range of conditions on at least two separate occasions and includes:

- applying Work, Health and Safety (WHS)/Occupational Health and Safety (OHS) requirements including:
 - risk control measures
 - safe working practices
 - site emergency procedures
- communicating with personnel
- documenting and reporting switching programmes
- drafting switching program
- identifying power generation plant status
- implementing legislation, industry standards, codes of practice and regulations
- interpreting switching program requirements
- researching switching programme using data analysis techniques and tools
- utilising manufactures' specifications and manuals
- validating switching program
- working with permit to work system

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, performance criteria and range of conditions and includes knowledge of:

- draft switching programme
- isolations
- legislation, industry standards, codes of practice and regulations
- manufacturers' specifications and manuals
- permit to work system
- power generation plant and equipment, its location and operating parameters

- power generation plant status
- switch programmes
- switchgear types and characteristics
- typical arrangements of power production plant
- validation of switching programs
- WHS/OHS legislated requirements including:
 - site emergency procedures
 - risk control measures
 - safe working practices
- workplace documentation
- workplace policies and procedures

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, industry standards, equipment specifications, regulations, codes of practice and operation manuals.
