Assessment Requirements for UETDRMP005 Perform elevated work platform rescue

Release: 1

Assessment Requirements for UETDRMP005 Perform elevated work platform rescue

Modification History

Release 1. This is the first release of this unit of competency in the UET Transmission, Distribution and Rail Sector Training Package Release 4.0.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on one occasion and include:

- identifying organisational elevated work platform (EWP) rescue requirements
- identifying hazards, assessing risks and applying control measures
- identifying and inspecting EWP retrieval systems for operational serviceability
- performing EWP rescue in accordance with workplace requirements
- removing the casualty from the EWP to the ground in accordance with workplace requirements.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- EWP retrieval systems
- organisational EWP rescue procedures including:
 - inspection and operational serviceability of EWP retrieval systems
 - assessment and control hazards to rescuer and personnel
 - safe approach distances (SAD) appropriate to EWP rescue
 - activation of emergency rescue response
 - removal of casualty from the EWP to the ground
 - relocation of casualty to safe location
 - incident site security
 - reporting requirements.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the

time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so.

Where this is not appropriate, assessment must occur in simulated conditions involving realistic and authentic activities that replicate operational workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate EWP retrieval systems currently used in industry for performing EWP rescue
- applicable documentation, including workplace procedures, equipment specifications and operation manuals.
