Assessment Requirements for UETDRMP010 Provide first aid in an ESI environment

Release: 1

Assessment Requirements for UETDRMP010 Provide first aid in an ESI environment

Modification History

Release 1. This is the first release of this unit of competency in the UET Transmission, Distribution and Rail Sector Training Package Release 4.0.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on one occasion and include:

- checking site for danger to self, casualty and others
- providing first aid for (2) two of the following:
 - electrical burns*
 - bites or stings
 - shock
 - bleeding
 - electrical shock
 - (*mandatory)
- monitoring and managing casualty.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- provision of first aid including:
 - assessment and control of dangers to rescuer, casualty and others
 - notification of external emergency services
 - the treatment of electrical burns, shock, bites, stings, bleeding and electric shock
 - first aid equipment and resources
 - first aid injury management principles.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the

time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so.

Where this is not appropriate, assessment must occur in simulated conditions involving realistic and authentic activities that replicate operational workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate equipment currently used in industry for providing first aid in an ESI environment
- applicable documentation, including workplace requirements, relevant industry standards, equipment specifications, and operation manuals.
