UETDRMP010 Provide first aid in an ESI environment

Release: 1

UETDRMP010 Provide first aid in an ESI environment

Modification History

Release 1. This is the first release of this unit of competency in the UET Transmission, Distribution and Rail Sector Training Package Release 4.0.

Application

This unit involves the skills and knowledge required to provide first aid in an electricity supply industry (ESI) environment.

It includes the recognition and provision of an initial response where first aid is required and how it applies to ESI workers to meet work health and safety (WHS)/occupational health and safety (OHS), mobility and mutual aid requirements.

No licensing applies to this unit at the time of publication.

Pre-requisite Unit

HLTAID009 Provide cardiopulmonary resuscitation

Competency Field

Mobility and Portability

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Prepare to provide first aid in an ESI environment

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | |
|------------|--|
| 1.1 | First aid equipment is accessed in accordance with workplace requirements |
| 1.2 | Site is assessed for danger to self, casualty and others in accordance with workplace requirements |

- | | | |
|---|------------|--|
| | 1.3 | Assistance is sought from others, if required |
| | 1.4 | Emergency services appropriate to the situation are notified |
| 2 Carry out the provision of first aid in an ESI environment | 2.1 | Physical condition and visible vital signs of the casualty are assessed |
| | 2.2 | First aid is provided to stabilise the casualty's condition in accordance with recognised first aid procedures |
| | 2.3 | Available first aid equipment is used as appropriate |
| | 2.4 | Information about the casualty's condition is conveyed accurately and clearly to emergency services personnel, as required |
| 3 Complete provision of first aid in an ESI environment | 3.1 | Incident site is secured and entry controlled in accordance with workplace requirements |
| | 3.2 | Incident is reported in accordance with workplace requirements |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the UET Transmission, Distribution and Rail Sector Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is not equivalent to UETDRRF007 Provide first aid in an ESI environment.

Assessment Requirements for UETDRMP010 Provide first aid in an ESI environment

Modification History

Release 1. This is the first release of this unit of competency in the UET Transmission, Distribution and Rail Sector Training Package Release 4.0.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on one occasion and include:

- checking site for danger to self, casualty and others
- providing first aid for (2) two of the following:
 - electrical burns*
 - bites or stings
 - shock
 - bleeding
 - electrical shock
 - (*mandatory)
- monitoring and managing casualty.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- provision of first aid including:
 - assessment and control of dangers to rescuer, casualty and others
 - notification of external emergency services
 - the treatment of electrical burns, shock, bites, stings, bleeding and electric shock
 - first aid equipment and resources
 - first aid injury management principles.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so.

Where this is not appropriate, assessment must occur in simulated conditions involving realistic and authentic activities that replicate operational workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate equipment currently used in industry for providing first aid in an ESI environment
- applicable documentation, including workplace requirements, relevant industry standards, equipment specifications, and operation manuals.
